

jQuery plugins

Assignment Aim

You are to research and implement some jQuery plugin that has not been demonstrated in class.

Using a PowerPoint presentation, you are to present and explain the new plugin. Your presentation should explain:

- what the plugin does
- from which site you sourced it
- explain how you implemented it (code extracts)

You are also to demonstrate how the plugin works by implementing the plugin in a web page.

Submission Details

The assignment is to be presented during class on Wednesday March 29.
